Subject Index

Volume 26

A

Abstracts, responding to calls for, 1:4
Academic achievement, critical thinking related to, in baccalaureate education, 3:125
Accreditation
  enhancing accreditation visits with application sketches and, 6:259
  NLNAC and CCNE accreditation compared, 1:17
Active learning strategies
  learning-based teaching tips for ESL students and, 5:204
  peer learning to promote, 2:59
  for teaching critical thinking, 1:39
Acute-care clinical setting, anxiety in students entering, decreasing, 4:169
Admissions exams, predicting success in ADN programs using, 3:132
Advanced practice, 4:162
Allergies, to latex, 2:57
Alumni, as mentors for at-risk students, 5:209
Anxiety, of students
  dispelling using interactive orientation program, 3:116
  entering acute-care clinical setting, decreasing, 4:169
Art
  production of, to promote teamwork, 1:46
  viewing, nursing diagnosis and, 3:117
Assessment, one-minute, 3:135
Associate degree education
  NCLEX-RN success and, predictors and implications of, 5:208
  providing leadership opportunities for associate degree students and, 4:177
At-risk students, alumni as mentors for, 5:209

B

Baccalaureate education
BSN as credential for entry into practice as RNs in California and, 2:53
  cooperative learning for teaching pathophysiology to undergraduate students and, 6:283
  critical thinking related to academic achievement in, 3:125
  implementing nursing programs via interactive video, 4:187
  integrating community-centered practices principles into community health nursing practicum, 5:234
  Journal of Undergraduate Nursing Scholarship and, 4:156
  leadership and management literature review for, 2:53
  student-faculty publication outside curriculum in, 6:280
  teaching about infectious diseases in, 3:110
  teaching student parents and, 2:64
  weaving research into practice-based experiences and, 4:182

C

Calls for abstracts, responding to, 1:4
Caregivers, of children with special needs, respite care for, 2:95
Care Groups, 6:268
Care plans
  mind-mapped, 2:75
  reversal patterns for teaching care plan process and, 1:43
Caring, teaching, 3:111
CCNE accreditation, NLNAC accreditation compared with, 1:17
Children
  comics and childhood development and, 6:289
  with special needs, respite care for families with, 2:95
  teddy bears for teaching, 5:214
Church programs, as first clinical experience, 3:122
Class discussion, in Internet classes, 1:28
Clinical decision making
  guidelines for evaluating tools for, 5:215
  rating students' technology generated clinical decision making scores and, 1:5
Clinical deficiencies
  dealing with unsafe students in clinical practice and, 1:23
  legal issues related to dismissing students for, 1:33
Clinical experience
  in acute-care settings, decreasing anxiety in students entering, 4:169
  church programs as, 3:122
  integrating community-centered practices principles into community health nursing practicum, 5:234
  interdisciplinary, 3:120
  Polyani's theory of knowledge and, 4:157
  unsafe students in, dealing with, 1:23
  weaving research into practice-based experiences and, 4:182
  Web technology for, 5:227
Clinical inference, of nursing students concerning harmful outcomes after medication errors, 6:256
Clinical instruction, Internet for, 1:3
Clinical scenarios, simulated, as teaching tools, 4:167
Clinical scholarship, promoting through scholarly writing, 2:81
Coaching, by peers, 5:212
Collaboration, fostering, 5:243
Comics, childhood development and, D6:289
Community-centered practice, integrating principles into community health nursing practicum, 5:234
Community nursing centers, developing, 2:70
Community service, free clinic as learning opportunity for, 1:4
Computerized-adaptive testing
  for clinical nursing courses, 5:227
  to determine competency in medication dosage calculation, 4:164
  moving licensure examinations to, 6:253
Confidential student information, 6:271
Continuous improvement, involving students in projects on, 4:175
Cooperative learning, for teaching pathophysiology to undergraduate students, 6:283
Critical thinking
  about assignments, 1:15
  academic achievement in BSN education and, 3:125
  developing with active learning strategies, 1:39
  incorporating exercises and clinical case scenarios through time in classroom, 3:141
  online, case study analysis of, 4:191
Critiquing research, 3:136
Cross-cultural nursing experience, 3:128
Curriculum
  effective revision of, 2:61
  framework for revision of, 6:264

new, clarifying language in, 6:274
reinforcing connection between learning and, 2:90
restructuring to meet future healthcare needs, 1:6

D

Decision making. *See* Clinical decision making
Dismissing students, for clinical deficiencies, legal issues related to, 1:33
Distance education, 1:9
Dosage calculation, Web CT to determine competency in, 4:164

E

Empowerment, National Student Nurses Association for, 4:198
English as a second language, learning-based teaching tips for ESL students and, 5:204
Enrichment programs, evaluating, 3:142
Ethics
confidential student information and, 6:271
in research, 3:108
Experiential learning, 5:240

F

Faculty
Care Groups and, 6:268
clinical, promotion of, 4:178
enhancing accreditation visits with application sketches and, 6:259
student collaboration with, simulated clinical scenarios and, 4:167
student-faculty publication outside curriculum in baccalaureate program, 6:280
Faculty development, 4:159
Faculty practice, in small liberal arts college, 2:84
Fairness, dealing with unsafe students in clinical practice and, 1:23
Fear. *See* Anxiety
Free clinic, as community service learning opportunity, 1:4

G

Grant writing, 2:54

H

Health promotion, enhancing students' experiences with, 4:155
Humor in nursing, 5:205

I

Infectious diseases, teaching undergraduate students about, 3:110
Interaction, fostering through multimedia, 2:90
Interactive video, implementing nursing programs via, 4:187
Interdisciplinary clinical experience, 3:120
Internet
class discussion in classes on, 1:28
using for clinical instruction, 1:3
Journal of Undergraduate Nursing Scholarship, 4:156

K

Knowledge, Polyani's theory of, 4:157

L

Latex allergy, 2:57
Leadership
National Student Nurses Association for development of, 4:198
providing leadership opportunities for associate degree students and, 4:177
review of literature on, for BSN students, 2:53
teaching to RN students, 3:119
Learning, reinforcing connection between curriculum and, 2:90
Learning outcomes, related to success on NCLEX-RN, 3:108
Legal issues, related to dismissing students for clinical deficiencies, 1:33
Levels of prevention, 1:6
Licensure examinations. *See also* NCLEX-RN
moving to computerized-adaptive testing, 6:253
NCLEX-PN, predicting performance on, 4:170

M

Management
review of literature on, for BSN students, 2:53
teaching to RN students, 3:119
Medication administration, student-centered interactive approach for, 1:38
Medication dosage calculation, Web CT to determine competency in, 4:164
Medication errors
clinical inference of nursing students concerning harmful outcomes after, 6:256
by students, 4:166
Mentoring
for at-risk students, alumni as mentors for, 5:209
Care Groups and, 6:268
Mind-mapped care plans, 2:75
Minor procedures, teaching to nurse practitioners, 4:162
Mrs. Reynolds Needs a Nurse film, 3:111
Multimedia, fostering interaction through, 2:90

N

Narrative pedagogy, for pathophysiology instruction, 2:66
National Student Nurses Association, leadership and empowerment and, 4:198
Native Americans, cross-cultural nursing experience and, 3:128
NCLEX-PN, predicting performance on, 4:170
NCLEX-RN
assisting at-risk students in preparing for, 3:150
associate degree nurse success on, predictors and implications of, 5:208
success on, learning outcomes related to, 3:108
NLNAC accreditation, CCNE accreditation compared with, 1:17
Nurse practitioners, expanding clinical skills repertoire of, 4:162
Nursing diagnosis, art for teaching, 3:117
Nursing reasoning model, 5:203

O

One-minute assessment, 3:135

P

Parents
of children with special needs, respite care for, 2:95
teaching student parents and, 2:64
Pathophysiology instruction
cooperative learning for teaching undergraduate students, 6:283
teaching strategies for, 2:66
Pedagogy, narrative, for pathophysiology instruction, 2:66
Peer coaching, 5:212
Peer learning, to promote active learning, 2:59
Peer review, of teaching in Web-based courses, 6:262
Political assessment inventory, transforming perspectives using, 5:220
Polyani's theory of knowledge, 4:157
Practical nursing students, predicting performance on NCLEX-PN by, 4:170
Preceptors, rewarding, 3:114
Presentations, submitting offers to make, 1:4
Prevention
enhancing students' experiences with preventive care and, 4:155
levels of, 1:6
Primary trait analysis, to develop prospectus guidelines for research, 4:156
Promotion, of clinical faculty, 4:178
Publication, student-faculty publication outside curriculum in baccalaureate program, 6:280

Q

Quality of care, involving students in projects on continuous improvement, 4:175
Questioning, Socratic, for pathophysiology instruction, 2:66

R

Registered nurses
BSN as credential for entry into practice as, in California, 2:53
teaching management and leadership to RN students and, 3:119
Research
ethics and, 3:108
integrating into practice using experiential learning, 5:240
primary trait analysis to develop prospectus guidelines for, 4:156
statistical interpretation of, 3:136
student-faculty publication outside curriculum in baccalaureate program, 6:280
weaving into practice-based experiences, 4:182
Resource allocation, service learning and, 5:244
Respite care, for families with children with special needs, 2:95

Reversal patterns, for teaching care plan process, 1:43
Rewarding preceptors, 3:114

S

Scholarly writing, promoting clinical scholarship through, 2:81
Service learning, resource allocation and, 5:244
Simulated clinical scenarios, as teaching tools, 4:167
Social justice, dealing with unsafe students in clinical practice and, 1:23
Socratic questioning, for pathophysiology instruction, 2:66
Special needs, children with, respite care for families with, 2:95
Spiritual sensitivity, increasing, 5:221
Statistical interpretation of research, 3:136
Student collaboration with faculty, simulated clinical scenarios and, 4:167
Student orientation, interactive, to dispel student fears, 3:116
Student parents, teaching, 2:64
Study groups, in enrichment programs, evaluating, 3:142

T

Teaching strategies
  alternative clinical nursing experience in art gallery as, 3:117
  cooperative learning as, 6:283
  critical thinking about assignments and, 1:15
  interdisciplinary clinical experience as, 3:120
  for pathophysiology instruction, 2:66
  peer learning as, 2:59
  to promote teamwork, 1:46
  reversal patterns for teaching care plan process, 1:43
Teaching tools
  for introducing nursing theory, 1:13
  Mrs. Reynolds Needs a Nurse film as, 3:111
  simulated clinical scenarios as, 4:167
Teamwork, teaching strategy to promote, 1:46
Teddy bears, for teaching children in community settings, 5:214
Terminology, in new curriculum, clarifying, 6:274
Theory
  integrating into practice using experiential learning, 5:240
  introducing, 1:13
  of knowledge, 4:157

V

Video, interactive, implementing nursing programs via, 4:187

W

Web-based courses, peer review of teaching in, 6:262
Web CT
  for clinical nursing courses, 5:227
  to determine competency in medication dosage calculation, 4:164
Writing, scholarly, promoting clinical scholarship through, 2:81
